

# Public Relations Policy

Eastern Guruma is committed to maintaining mutually healthy relationships with all stakeholders that may be impacted by, or have an interest in, our projects.

Eastern Guruma will:

- Identify and consult with key stakeholders at the earliest stage to facilitate communication
- Record concerns identified by stakeholders and issues which may impact stakeholders with the aim of mitigating the concerns/issues via either elimination, substitution or control
- Provide feedback to stakeholders on the management of the identified issues.
- Ensure that each project complies with this policy.
